

# Uniform Sizing Worksheet – Ship 1612 – SSS Mako

Sea Scouts Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Procedure:

Step 1: Using a cloth tape, take the following measurements and record the results.

- #1     Around the chest, under the arms     = \_\_\_\_\_ inches
- #2     Around the chest, over the arms       = \_\_\_\_\_ inches
- #3     Around the midriff, at the navel       = \_\_\_\_\_ inches
- #4     Height, without shoes on               = \_\_\_\_\_ inches
- #5     Around the head, at widest part       = \_\_\_\_\_ inches

Step 2: To order the correct size jumper:

**Required Size**     \_\_\_\_\_

- If the difference between measurements #1 and #2 is less than 7 inches, use measurement #1 as the jumper size.
- If the difference between measurements #1 and #2 is 7 or more inches, then use measurement #1 plus 2 inches as the jumper size.
- However, in either case, if measurement #3 is greater than measurement #1, use measurement #3 as the jumper size in order that the jumper will hang straight at the sides.

Step 3: To order the correct size 13-button bell bottom trousers:

**Required Size**     \_\_\_\_\_

- Use measurement #3

Step 4: To obtain correct sleeve and trouser length:

**Required Length**   \_\_\_\_\_

- If measurement #4 is less than 58", add the suffix "S" for short to the trouser and jumper size.
- If measurement #4 is between 58" and 72", add either the suffix "S" for short or "R" for regular to the trouser and jumper size. The "R" will give a slightly more roomy fit, with more material available to hem. The "S" will be a slightly tighter fit.
- If measurement #4 is between 72" and 74", add the suffix "R" for regular to the trouser and jumper size.
- If measurement #4 is between 74" and 76", add the suffix "L" for long to the trouser and jumper size.
- If measurement #4 is greater than 76", add the suffix "XL" for extra long to the trouser and jumper size.

Step 5: To obtain the correct cover size:

**Required Size**     \_\_\_\_\_

- Consult the Hat Size conversion chart below.

Step 6: To tailor the uniform jumper and trousers for a final fit once received:

- The jumper should be hemmed, if necessary, to hang so that the jumper covers all but the bottom two buttons on each side of the thirteen buttons on the trousers.
- The trousers should be hemmed, if necessary, so that the trouser legs hang straight and do not “break” or bend at the shoe. The bottoms of the hems should just kiss the tops of the shoes.
- If they are not already removed, the middle white stripes on both cuffs and on the flap of the jumper should be removed.
- If they are not already removed, the two white stars on the flap of the jumper should be removed.
- Sea Scout Insignia will be provided and the scout should put on the uniform(s) in the proper locations per Sea Scout Manual.
