## **NRA Law Enforcement Exploring Center Fire Pistol Competition**

The purpose of the NRA Law Enforcement Exploring Center Fire Pistol Competition (LEECFPC) is to offer Law Enforcement Explorers an opportunity to participate in a nationwide center fire pistol competition, shoulder to shoulder, online. Shooters will conduct live fire in their home communities under the supervision of a certified firearms instructor and submit their scores to the NRA via the internet as a member of a registered Post participating in the NRA Law Enforcement Exploring Marksmanship Qualification Program (LEEMQP). There is no limit to the number of times an Explorer may shoot this course of fire; however, only one score will be reported to the NRA for entry into this online match. Scores fired in this competition will serve as the basis for selection to compete in the National Law Enforcement Exploring Pistol Championship (NLEEPC).

### **MATCH CONDITIONS**

#### **ELIGIBILITY**

An Explorer may enter this online match only once per calendar year. An Explorer may compete as an individual and on only one team, either a two or four man team, not both. All competitors must be a member of a Post registered in the LEEMQP. As such, each Explorer who enters this competition must have received a minimum of eight (8) hours of instruction in, but not limited to, fundamentals of marksmanship, firearms safety, and range operations by a firearms instructor (certified by a federal, state, county, or municipal government or the NRA). Membership with the NRA is not required **but is encouraged**.
