ACTIVITIES
Introduction
Choose one or more of the following:

Provide an overview of some of the differences between military life and a job outside of the military. Be sure to touch on some of the unique aspects of military life.

Or divide the participants into small groups and have them brainstorm what they know about the different branches of the military. Have them share their perceptions with the larger group.

Or have the participants discuss why they might be interested in joining the military.

Activity 1
Military Overview
Show Explorers the Army history materials (http://www.goarmy.com/about/what-is-the-army/history.html) and the Air Force history materials (https://www.airforce.com/mission/history). Lead a discussion about how these branches of the military evolved and their specialized missions.

Show Explorers the “Joining Overview” video (http://todaysmilitary.com/joining) and lead a discussion about their thoughts on the military’s role in your community, our country, and our world.
Activity 2
Military Careers
With the Explorers, review the Jobs in Today’s Military information sheet found at
http://cdn.todaysmilitary.com/JobsinTM_Educators.pdf. Divide Explorers into small groups and have them discuss what they learned about jobs in the military. In the larger group, have participants share what types of military jobs interest them, what surprised them, and what they did not understand.

Have a veteran or currently serving military member speak to the post about his or her experience, why he or she served, and how it impacted his or her life. Give participants the opportunity to ask questions.

Activity 3
Army Physical Fitness Test
Find the requirements for the Army Physical Fitness Test and discuss with participants the importance of being physically fit while serving in the military. Have participants take the test.

Activity 4
Recruiting Office/JROTC Visit
With the post, visit a local recruiting office to learn about military service from an official recruiter. Have participants meet with several recruiters and ask questions about careers, service, and the importance of enlisted service.

As an alternative, if there is a JROTC program at a local high school, arrange a visit for the participants to meet the students, discuss with the faculty the importance of the program, and learn more about why students enroll in this program.

Activity 5
National Guard Visit
Have the post visit a local National Guard or Reserve weekend drill. Choose a one-hour period for participants to observe the unit in an activity where they can meet military personnel, see their equipment, and discuss the impact of service.

ADVISOR NOTE
Some sample questions are below. They are designed to help the participants apply what they have learned to their own interests. You are welcome to use these questions or develop your own questions that relate to your post or specific focus area.

REFLECTION
- What did you learn that surprised you?
- What did you learn that makes you think the military would be a good career fit for you?
- What did you learn that makes you think the military would not be a good career fit for you or would be a concern to you?
- What are some benefits to being a member of the military vs. having a traditional non-military job?
- Discuss these other aspects of military life: camaraderie; living on base or with your peers; formal hierarchy structure; sense of family; sense of pride in protecting your country.

**ADVISOR AND OFFICER REVIEW**

After the meeting, address the following:
- Identify what was successful about the meeting.
